2021

unrwa usa annual report overview

amount of funding provided to unrwa usa by pillar

work by pillar

In 2021, UNRWA USA adopted four technical pillars to guide and prioritize our program funding, with the ultimate goal of deepening our impact in each of these areas: 1) **Education + Training**, 2) **Health** (including mental health), 3) **Protection** and 4) **Emergency Response**. Framing our work in these competency areas allows us to better measure and articulate our impact. By focusing our efforts, we can make sure we are contributing to programs that are transforming refugee lives through meeting human needs and creating opportunities. With your generosity, in 2021 we were able to disburse nearly \$5 million to UNRWA, our largest annual support to the Agency to date, making us the Agency's top institutional donor in 2021.

donor highlight

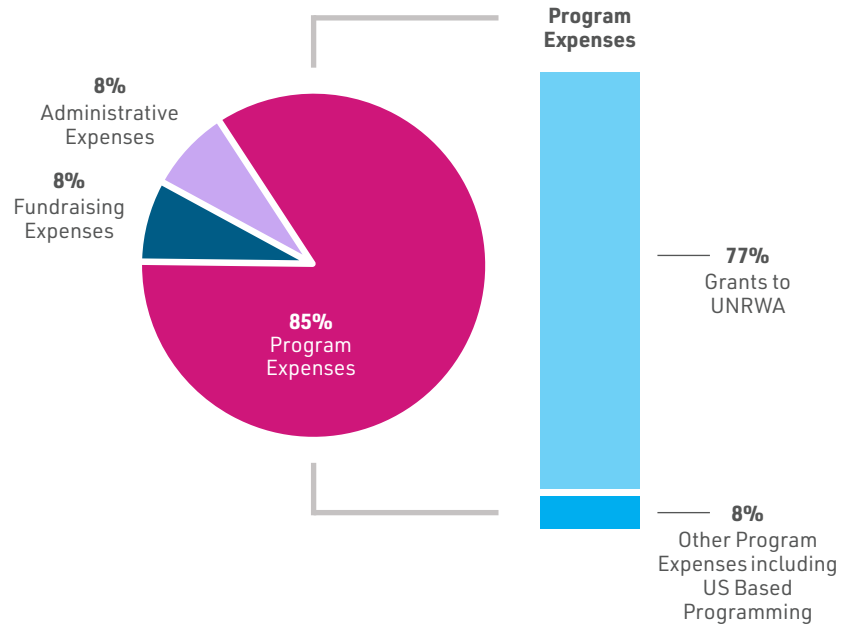

My reasons for support of Palestine refugees came from many angles – I met refugees in 1959 in Jerusalem. I see the good UNRWA USA does. I see the horrible treatment of the Palestinians with no justice forthcoming, I'm furious over the demolitions of homes, I was furious when funds to UNRWA were cut. Gaza is never far from my heart. The determination and resilience of the people inspires me.
