work by pillar

In 2022, UNRWA USA advanced in our four technical pillars: **education** and training, **health**, **protection**, and **emergency response**. Our pillars guide and prioritize our funding, with the ultimate goal of deepening our impact in each of these areas. As always, we make sure we're contributing to programs that are transforming refugee lives by meeting human needs while creating opportunities. With your generosity, in 2022 we were able to disburse over \$3.8 million to UNRWA.

donor highlight

I support UNRWA USA because like many Palestinian refugees, my path to help hundreds of patients around the world, to bring my father pride, just needed one scholarship. Let's celebrate the future of Palestine by investing in its brightest stars. Let's ensure that no refugee child's academic journey ends prematurely due to financial constraints.
